The CDD needs to seriously look into acquiring within, or outright ownership of a strip of land from the County and City along Grady Prather Jr CV and Waterfront Park Road so that it can own and maintain the boundary fencing that surrounds our community.	Eventually, someone in Grand Haven is going to die from a collision of the deer within the community. The CDD should consider a program of deer population control and/or relocation. The deer's natural predators, e.g. alligators, are being controlled. They should be also.
